SKILLS

- Frontend: React 18, Next.js 14, TypeScript, JavaScript, Vite, Tailwind CSS

- Backend: Supabase (Auth/DB), PHP, Node.js, REST APIs, MySQL, PostgreSQL

- Web3: Solidity, Ethers.js, IPFS/Pinata, Hardhat, OpenZeppelin

- UI Libraries: shadcn/ui, Radix UI, Flowbite, Headless UI

- Dev Tools: Git/GitHub, Vercel, ESLint, Bun, PostCSS, vscode, cursor

CERTIFICATION

**Edlivky Coding Academy –
Benin City, Nigeria**

- **Frontend Development Certificate – 2024**
- **Backend Development (PHP) Certificate – 2024**

SOFT SKILLS

- Communication & Team Leadership
- Self-learning & Rapid Adaptability
- Attention to Detail & UI/UX Sensibility
- Problem-Solving & Performance Tuning
- Creative Thinking & Initiative

PROFILE SUMMARY

Full-stack developer skilled in crafting and deploying modern web applications. Proficient in building scalable systems using React, Next.js, Supabase, and PHP. Strong expertise in performance optimization, secure backend design, and clean UI/UX workflows.

Also an AI automation expert, with capabilities in AI-based media tools and process automation.

Known for leading with clarity and delivering with precision.

WORK EXPERIENCE

ArtMint NFT Marketplace

art-mint.vercel.app

- A full-stack decentralized NFT platform for minting, listing, and trading digital assets. Built with Next.js 14, Solidity, IPFS, and Supabase, it features wallet integration, smart contract execution, and secure asset storage.

Edlivky Hospital Admin System

https://github.com/benjamindlabs/edlivkyhospital

- An interactive hospital management dashboard built with PHP, Tailwind CSS, and MySQL. Features include patient records, appointment tracking, charts for analytics, and secure admin authentication.

Rare Decor E-Commerce Site

rare-decor.vercel.app

- A sleek online store for luxury interior decor, featuring user authentication, product browsing, shopping cart, and seamless checkout. Built with React, Supabase, and Radix UI.

NairaLend Financial Platform

nairalend.vercel.app

- A responsive loan application system with user authentication, role-based access control (RBAC), and an interactive dashboard. Built with React, Supabase, and modern validation libraries.

Edlivky Coding Academy

edlivkycodingschool.vercel.app

- Developed a modern educational platform with interactive course browsing, theme switching, and clean UI components powered by shadcn/ui and Radix UI.

AI & AUTOMATION EXPERTISE

- Built flows with n8n, ManyChat, integrated with external APIs
- Edited and enhanced videos/images using Runway ML, Pika, Midjourney
- Strategic use of tools like Cursor, v0.dev, and AI agents for boilerplate and pipeline acceleration
